Re: VMRC # 13-1893

Dear Mr. Pittman:

Pursuant to your request, please be advised that your above-referenced General Permit #3 has been extended. The permit authorizes 20 2' X 3' X 6" floats to be installed under pier at community-use pier at applicants slip.

Please attach this letter to the previously issued permit as evidence of the authorization contained herein. This permit will expire on December 20, 2023, but may be extended upon written request made prior to the expiration.

As you were previously advised, the general permit stipulates that the area occupied by the structures will not exceed 160 square feet, the activity is strictly noncommercial, and the structures will not adversely impact navigation, nor existing stands of submerged aquatic vegetation.

You are also reminded that you are responsible for complying with all VMRC and Virginia Department of Health regulations concerning shellfish grown in condemned or otherwise restricted waters. Should you decide at a later date that you want to begin selling the cultured shellfish or that you want to expand the area occupied by your floats/cages/bags beyond 160 square feet, a new individual permit will be required from VMRC.
