Commander, (OAN)  
Fifth Coast Guard District  
431 Crawford Street  
Portsmouth, Virginia 23704

Dear Sir,

Wescar Corporation will be dredging the entrance channel to Bennetts Creek, Nansemond River, Suffolk, Virginia. We will begin laying pipeline May 12 and begin dredging operations on May 15. Due to the shallow nature of the waters between Bennetts Creek and the spoil area on West Creek, it will affect small boat traffic entering and exiting Knotts Creek on low water levels. Please issue a Notice to Mariners advising them of our operations in the Bennetts Creek, Knotts Creek, West Creek, and adjacent waters for the period May 12 thru May 25.

Thank You,

*James T. Carr*
